Professional Summary

Senior Frontend Engineer with 5+ years of experience building scalable, high-performance web applications using React.js, TypeScript, Next.js, and modern frontend architecture patterns. Experienced in developing enterprise-grade applications, reusable component systems, micro frontend architecture, and performance optimization techniques. Skilled in building responsive and maintainable user interfaces, API integrations, state management, and scalable frontend solutions with strong focus on clean architecture, user experience, and application performance.

Skills

- **Languages:** JavaScript, TypeScript, HTML5, CSS3
- **Frontend Technologies:** React.js, Next.js, React Native, Redux Toolkit, React Query, Context API, MUI, Tailwind CSS
- **Architecture & Performance:** Micro Frontend, Module Federation, Frontend Architecture, Design Systems, Reusable Components, Code Splitting, Lazy Loading, Performance Optimization
- **Testing:** Jest, Enzyme, TDD
- **Tools & Platforms:** Git, GitHub, CI/CD, Firebase, REST APIs, GraphQL, Agile Methodology

Professional Experience

Senior Software Engineer Nov 2025 – Present
EY, New Delhi

- Contributed to enterprise-scale frontend applications for the CCTNS platform under NCRB using React.js and TypeScript
- Managed asynchronous server state and caching using React Query
- Implemented Micro Frontend architecture and scalable frontend modules for large government systems
- Built reusable UI components, complex workflows, and secure role-based interfaces
- Developed custom hooks, DTO-based architecture, and optimized state management solutions
- Integrated REST APIs and handled asynchronous data flows efficiently
- Improved application performance through code splitting, lazy loading, and rendering optimizations
- Participated in code reviews, Agile ceremonies, and cross-functional collaboration

Senior Software Engineer Apr 2024 – Sep 2025
Ennovations Techserv

- Architected scalable frontend applications using React.js, TypeScript, MUI, and Redux Toolkit
- Implemented code splitting and lazy loading strategies to improve performance and reduce initial load time
- Built reusable UI component libraries and responsive user interfaces for enterprise applications
- Integrated REST APIs and optimized frontend rendering for better maintainability and scalability
- Collaborated with backend teams and stakeholders in Agile development environment

Software Developer Feb 2022 – Mar 2024
Okoders

- Developed scalable web applications using React.js, JavaScript, and REST APIs

- Built merchant transaction management systems and hotel booking platforms with responsive UI
- Reduced API-related issues and improved application reliability using Jest testing
- Worked on reusable frontend components, API integrations, and asynchronous data handling
- Collaborated with team members to deliver high-quality features in Agile environment

Frontend Developer

Aug 2021 – Feb 2022

Tecfortiy

- Developed responsive and user-friendly web interfaces using React.js, HTML, CSS, and JavaScript
- Built analytics dashboards with role-based access and data visualization features
- Improved cross-browser compatibility and frontend responsiveness across devices
- Worked closely with designers and backend developers to deliver seamless user experience

Projects

CCTNS (Crime and Criminal Tracking Network & Systems) – NCRB

Enterprise-scale frontend applications for government platform using React.js and TypeScript. Contributed to Micro Frontend architecture, scalable UI modules, complex workflows, reusable components, role-based access systems, API integrations, and performance optimization.

- **Tech:** React.js, TypeScript, Redux Toolkit, Micro Frontend, REST APIs, MUI, Custom Hooks

Engagemo.com

Interactive educational platform enabling real-time communication between teachers and students. Developed scalable frontend modules, responsive UI components, and real-time interaction features for seamless learning experience.

- **Tech:** React.js, TypeScript, Firebase, Redux Toolkit

NetAmbit Insurance Platform

Responsive and scalable insurance booking and management platform. Built user-friendly interfaces, integrated APIs, form validations, and dynamic application flows with optimized performance.

- **Tech:** React.js, TypeScript, Redux Toolkit, REST APIs, MUI

Education

Bachelor of Computer Applications (BCA)

Chhatrapati Shahu Ji Maharaj University (CSJMU)

2017 – 2020
